

PLANTATION SHUTTERS

Beautiful. Practical. Built to last.

DESIGNED FOR QUEENSLAND LIVING

Free in-home measure & quote · Sunshine Coast

STYLE THAT EARNS ITS PLACE IN YOUR HOME

*Clean architectural lines, everyday comfort and precise control
of light, airflow and privacy.*

BUILT TO LAST

A durable, permanent window furnishing designed for years of everyday use.

COOLER + COMFORTABLE

Excellent insulation helps reduce heat transfer through your windows.

LIGHT + AIRFLOW

Tilt the blades to direct breeze, soften glare and control natural light.

PRIVACY ON YOUR TERMS

Fine-tune privacy without completely closing the room off.

TIMELESS STYLE

A premium finish for coastal, classic and contemporary homes.

ADDED HOME APPEAL

Quality shutters elevate the presentation and perceived value of your home.

FIVE RANGES. ONE SIMPLE GOAL.

We recommend the shutter that best suits your opening, room and budget.

per m²

Ideal for patios, outdoor living and exposed areas. Quoted to suit your project.

PROJECT-SPECIFIC QUOTE

* Price is for fixed or hinged shutters. Sliding, bi-fold and shaped shutters are available on some models. Surcharges apply.

THE DETAILS MAKE THE DIFFERENCE

63 MM OR 89 MM BLADES - YOUR CHOICE

Choose the look that suits your home. 89 mm gives generous view, light and airflow; 63 mm offers a finer, more traditional profile.

HIDDEN TILT

For the cleanest finish, hidden tilt keeps the operating mechanism discreet. Clearview remains a neat, practical alternative.

HINGED - SLIDING - BI-FOLD

From standard windows to large openings, doors and room dividers, we select the configuration that works best for the space.

BEYOND THE WINDOW

SHUTTERS CAN TRANSFORM A SPACE.

Frame a window, divide a room, screen a doorway or solve a large opening.

ROOM DIVIDERS

WET AREAS

OUTDOOR AREAS

THE RIGHT MATERIAL FOR EVERY SPACE

Choose polymer shutters for indoor living, including bathrooms and other wet areas, and aluminium shutters for outdoor areas, patios and exposed spaces. For larger openings, hinged, sliding or bi-fold solutions keep the space feeling light and open.

PERFORMANCE REIMAGINED

For bedrooms and spaces where heat and light control matter most.

S-SHAPED BLADE

A distinctive profile designed to improve room darkening by closing more tightly.

SIDE MOHAIR DETAIL

A side seal that helps reduce light entering around the shutter panel.

LUVRE THERME

A heat-reflective coating designed to reduce heat transfer and help interiors stay cooler.

SNOW WHITE

One crisp, contemporary finish keeps the range deliberately simple.

From \$399*

per m² · HINGED APPLICATIONS

Ask us whether LUVRE is the right performance upgrade for your room.

* Price is for fixed or hinged shutters. Sliding, bi-fold and shaped shutters are available on some models. Surcharges apply.

FINISH IT YOUR WAY

We bring physical samples to your home so you can compare colours in the room itself.

NORTHWIND PREMIUM COLOURS

Konomie: F05 White only

NORTHWIND PACIFICA COLOURS

LUVRE: Snow White only

Colours shown are indicative; physical samples are used for final selection.

WHY NORTHWIND?

Personal service. Proper advice. Great installation.

We're small enough to provide genuinely personal service, but experienced enough to know what makes a great shutter. Rather than being tied to one manufacturer, we've handpicked proven ranges from established suppliers with strong warranties.

WARRANTIES YOU CAN RELY ON

Up to 20 years on selected ranges. Warranty terms vary by product and we explain exactly what is covered with the shutter we recommend for your home.
